

Clam and Seafood Mix

Welcome to **MINHDANG** Seafood, the 2nd ranked cephalopod manufacturer and exporters in Vietnam (VASEP 2011). You will find us one-stop solution in Vietnam for wide range of seafood product and service needs. Our HACCP manufactory and professional production process secure our products with freshness preservation, superior meat texture, strong nutritional content with strict food safety standards

All products are naturally and sustainably caught, processed and preserved under EU approved (DL449) and HACPP compliant standards.

CLAM and SEAFOOD MIX

Minh Dang Yellow Clams (*Paphia Undulata*) and White Clam (*Meretrix Lyrata*) are extremely versatile and easy to prepare with delicious meat texture. Our clams are completely wide caught with chemical free, purged of sand, size graded in vacuum packaging to retain the juice inside the clam. Once cooked, the clams are quickly blast frozen to maintain them at the peak of freshness.

Presentation	Description	Size Range
